

Micro Commercial Components 20736 Marilla Street Chatsworth CA 91311

Phone: (818) 701-4933 Fax: (818) 701-4939

SMBJ5338B THRU SMBJ5369B

Features

- Low Profile Package for Surface Mountiong(Flat Handling Surface for Accurate Placement)
- Zener Voltage 5.1V to 51V
- High Surge Current Capability
- For Available Tolerances-see Note 1
- Available on Tape and Reel (see E1A std RS-481)
- Lead Free Finish/Rohs Compliant (Note1) ("P"Suffix designates Compliant. See ordering information)

Mechanical Data

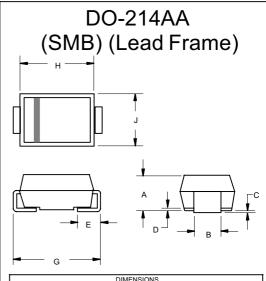

- Standard JEDEC Outlines as Shown
- Marking: See page 2
- Maximum Temperature for Soldering: 260^oC for 10 Seconds
- Epoxy meets UL 94 V-0 flammability rating
- Moisture Sensitivity Level 1

Electrical Characteristics @ 25°C Unless Otherwise Specified

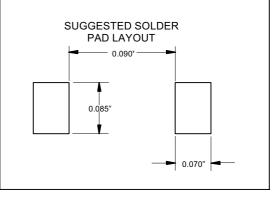

| Forward Voltage at 1.0A Current | V_{F} | 1.2Volts |
|---------------------------------------|-----------------------------------|-------------------|
| Steady State Power Dissipation | P _(AV) | 5Watts See Note 2 |
| Operating and Storage Temperatures | T _J , T _{STG} | -55°ℂ to +150°ℂ |
| Thermal Resistance | $R_{	heta JL}$ | 25°C /W |

- Note: 1. High Temperature Solder Exemptions Applied, see EU Directive Annex 7.
 - 2. Lead temperature at 25°C = TL at mounting plane. Derate linearly above 25°C to zero power at 150 °C

5 Watt Surface Mount Silicon Zener Diode 5.1 to 51 Volts

SMBJ5338B thru SMBJ5369B

Micro Commercial Components

- Note 1 Devices listed have a \pm 5% tolerance on nominal V _{z.} The suffix A denotes a \pm 20% tolerance,suffix C denotes a \pm 2%
- Note 2 Nominal Zener Voltage (V $_{\rm Z}$) is read with the device in standard test clips with 3/8 to ½ inch spacing between clip and case of the diode. Before reading, the diode is allowed so stabilize for a period of 40 $\,\pm$ 10 milliseconds at 25°C (+8, -2°C).
- Note 3 The Zener impedance (Z_{ZT} or Z_{ZK} is derived from the 60 H_Z ac voltage, which results when an ac current having a rms value equal to 10% of the dc zener current (I $_{ZT}$ or I_{ZK}) is superimposed on I $_{ZT}$ or I_{ZK} respectively.
- Note 4 The Maximum Reverse (leakage) Current is specified for devices with \pm 20% and \pm 10% voltage tolerances on nominal V_Z in another column.

Note 5 The Maximum Zener Current (I $_{ZM}$) shown is for \pm 5% tolerance devices. I $_{ZM}$ for \pm 10% and \pm 20% devices can be calculated using the formula:

$$I_{ZM} = \frac{P}{V_{ZM}}$$

Where " V_{ZM} " is V_Z at the high end of the voltage tolerance specified and "P" is the rated power of the device

- Note 6 The Surge Current (I_{ZM}) is specified as the maximum peak of a nonrecurring sine wave of 8.3 milliseconds duration.
- Note 7 Voltage Regulation (ΔV_Z) is the difference between the voltage measured at 10% and 50% I $_{ZM}$).

T_L, Lead temperature (°C) 3/8" from body

IMPORTANT NOTICE

Micro Commercial Components Corp. reserves the right to make changes without further notice to any product herein to make corrections, modifications, enhancements, improvements, or other changes. **Micro Commercial Components Corp.** does not assume any liability arising out of the application or use of any product described herein; neither does it convey any license under its patent rights, nor the rights of others. The user of products in such applications shall assume all risks of such use and will agree to hold **Micro Commercial Components Corp.** and all the companies whose products are represented on our website, harmless against all damages.

LIFE SUPPORT

MCC's products are not authorized for use as critical components in life support devices or systems without the express written approval of Micro Commercial Components Corporation.

CUSTOMER AWARENESS

Counterfeiting of semiconductor parts is a growing problem in the industry. Micro Commercial Components (MCC) is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. MCC strongly encourages customers to purchase MCC parts either directly from MCC or from Authorized MCC Distributors who are listed by country on our web page cited below. Products customers buy either from MCC directly or from Authorized MCC Distributors are genuine parts, have full traceability, meet MCC's quality standards for handling and storage. MCC will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. MCC is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.
